STATE TEACHERS COLLEGE LIBRARY

Maryland State Normal School,

—BALTIMORE.—

THE · MARYLAND · STATE · NORMAL · SCHOOL, :: established by the School Law of 1865, and re-organized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 12; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles, 6; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8, Worcester, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respec-

tive counties, or to the Board of Commissioners of Public Schools of the city of Baltimore. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the city of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is there intention to engage in the proefssion of teaching within the State."

When the legal quota from any county, or from the city of Baltimore, is filled, applicants from that county or from Baltimore City should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner, or from the City Superintendent.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term, of 1894-95 commences on Tuesday September 4th. The Winter Term commences on the first Monday in January and closes on the last Thursday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, *and not at any other time*,

unless previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday Sept. 4th, and former students desiring a re-examination for promotion must be present on Wednesday, September 5th. Classes will be formed and regular recitations begin on Monday, Sept. 10th.

EXPENSES.

Students appointed by the County School Boards, or by the Baltimore City Board, are under no expense for tuition, English text-books, and School stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from $3.50 to $4.00 a week and within half an hour's walk, at $3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the principal, who will see that they obtain suitable accommodations.

COURSE OF INSTRUCTION.

The course of instruction extends through three years. Candidates for admission, may enter the second year's (middle) class, on passing an examination, on the studies of the first (Junior) year, and the third year's (Senior) class on passing an examination on the studies of the second (middle) year.

SINGING, DRAWING, AND PHYSICAL AND VOICE TRAINING, are taught in every Term except the last, also sewing (to women), and Military tactics and the use of Wood-working Tools (to men).

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and pass a satisfactory examination also in Arithmetic, Geography, History of Maryland and History of the United States, English Grammar and Physiology. Young persons who have not received a good *Primary* education,

should not expect to obtain it at this school, under the claim that they are training for teachers ; but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is imposible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in one year, the majority require three years. Students differ very greatly, both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence: or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law ; but the permanent diploma of the school which authorizes the holder to teach in any public school in the state is not given until after one year's successful experience as a teacher.

Maryland State Normal School,

— BALTIMORE. —

THE · MARYLAND · STATE · NORMAL · SCHOOL, :: established by the School Law of 1865, and reorganized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 12; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles 6; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their res-

pective counties, or to the Board of Commissioners of Public Schools of the city of Baltimore. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the city of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the profession of teaching within the State."

When the legal quota from any county, or from the city of Baltimore, is filled, applicants from that county or from Baltimore City should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner, or from the City Superintendent.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term, of 1895-1896 commences on Tuesday, September 10th. The winter Term commences on the first Monday in January and closes on the last Thursday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, *and not at any other time*, un-

less previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday, Sept. 10th, and former students, desiring a re-examination for promotion must be present on Wednesday, September 11th. Classes will be formed and regular recitations begin on Tuesday, Sept. 17th.

EXPENSES.

Students appointed by the County School Boards, or by the Baltimore City Board, are under no expense for tuition, English text-books, and School stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from $3.50 to $4.00 a week and within half an hour's walk, at $3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the principal, who will see that they obtain suitable accommodations.

COURSE OF INSTRUCTION.

The course of instruction extends through three years. Candidates for admission, may enter the second year's (middle) class, on passing an examination, on the studies of the first (Junior) year, and the third year's (Senior) class on passing an examination on the studies of the second (middle) year.

SINGING, DRAWING AND PHYSICAL AND VOICE TRAINING, are taught in every Term except the last, also sewing (to women), and Military tactics and the use of Wood-working Tools (to men).

Students will be examined on entrance in order to as-

certain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and pass a satisfactory examination also in Arithmetic, Geography, History of Maryland and History of the United States, English Grammar and Physiology. Young persons who have not received a good *Primary* education, should not expect to obtain it at this school, under the claim that they are training for teachers; but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in two years, the majority require three years. Students differ very greatly, both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a

thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school which authorizes the holder to teach in any public school in the state is not given until after one year's successful experience as a teacher.

Maryland State Normal School,

BALTIMORE.

THE · MARYLAND · STATE · NORMAL · SCHOOL, :: established by the School Law of 1865, and reorganized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 12; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline, 6; Carroll, 10; Cecil, 8; Charles 6; Dorchester, 8; Frederick, 12; Garrett, 6; Harford, 10; Howard, 6; Kent, 6; Montgomery, 8; Prince George, 8; Queen Anne, 8; St. Mary, 6; Somerset, 8; Talbot, 8; Washington, 10; Wicomico, 8; Worcester, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respective counties, or to the Board of Commissioners of Public Schools of the city of Baltimore. The law requires the ap-

pointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the city of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the profession of teaching within the State."

When the legal quota from any county, or from the city of Baltimore, is filled, applicants from that county or from Baltimore City should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner, or from the City Superintendent.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term, of 1896-1897 commences on Tuesday, September 8th, The winter Term commences on the first Tuesday in January and closes on the last Thursday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, *and not at any other time*, unless previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday, Sept. 8th, and former students, desiring a re-examination for promotion must

be present on Wednesday, September 9th. Classes will be formed and regular recitations begin on Tuesday, Sept. 15th.

EXPENSES.

Students appointed by the County School Boards, or by the Baltimore City Board, are under no expense for tuition, English text-books, and School stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from $3.50 to $4.00 a week and within half an hour's walk, at $3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the principal, who will see that they obtain suitable accommodations.

COURSE OF INSTRUCTION.

The Course of instruction extends through three years. Candidates for admission, may enter the second year's (middle) class, on passing an examination, on the studies of the first (Junior) year, and the third year's (Senior) class on passing an examination on the studies of the second (middle) year.

Observation of actual teaching, in both Normal and Model Schools, with notes thereon is required of every class.

SINGING AND DRAWING are taught in every Term except the last, also sewing (to women,) and Military tactics and the use of Wood-working Tools (to men.)

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and pass a satisfactory examination also in Arithmetic, Geography, History of Maryland and History of the United States, English Grammar and Physiology. Young persons who have not received a good *Primary* education, should not expect to obtain it at this school, under the claim that they are training for teachers; but all due allowance will be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in two years, the majority require three years. Students differ very greatly, both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no

professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school which authorizes the holder to teach in any public school in the state is not given until after one year's successful experience as a teacher.

Maryland State Normal School,

BALTIMORE.

THE MARYLAND STATE NORMAL SCHOOL, established by the School Law of 1865, and reorganized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 12; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline County, 6; Carroll County, 10; Cecil County, 8; Charles County, 6; Dorchester County, 8; Frederick County, 12; Garrett County, 6; Harford County, 10; Howard County, 6; Kent County, 6; Montgomery County, 8; Prince George's County, 8; Queen Anne's County, 8; St. Mary's County, 6; Somerset County, 8; Talbot County, 8; Washington County, 10; Wicomico County, 8; Worcester County, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respective counties, or to the Board of Commissioners of Public Schools of the city of Baltimore. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the city of Baltimore, from

among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the profession of teaching within the State."

When the legal quota from any county, or from the city of Baltimore, is filled, applicants from that county or from Baltimore City should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner, or from the City Superintendent.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Terms. The Fall Term, of 1897-1898 commences on Tuesday, September 14th. The Winter Term commences on the first Wednesday in January and closes on the last Thursday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Terms, *and not at any other time*, unless previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday, September 14th, and former students, desiring a re-examination in Physics, Minerology and Geology for promotion must also be present on Tuesday, September 14th.

EXPENSES.

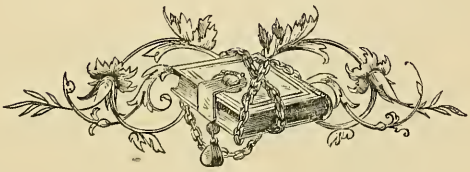

Students appointed by the County School Boards, or by the Baltimore City Board, are under no expense for tuition, English text-books, and School stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from $3.50 to $4.00 a week and within half an hour's walk, at $3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the principal, who will see that they obtain suitable accommodations.

Course of Instruction.

The course of instruction extends through three years. Candidates for admission may enter the second year's (middle) class, on passing an examination, on the studies of the first (Junior) year, and the third year's (Senior) class on passing an examination on the studies of the second (middle) year.

Observation of actual teaching, in both Normal and Model Schools, with notes thereon is required of every class.

Singing and Drawing are taught in every Term except the last, also sewing (to women,) and Military tactics and the use of Wood-working Tools (to men.)

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and pass a satisfactory examination also in Arithmetic, Geography, History of Maryland and History of the United States, English Grammar and Physiology. Young persons who have not received a good *Primary* education, should not expect to obtain it at this school, under the claim that they are training for teachers; but all due allowance will

be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in two years, the majority require three years. Students differ very greatly, both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school which authorizes the holder to teach in any public school in the State is not given until after one year's successful experience as a teacher.

Maryland State Normal School,

BALTIMORE.

THE MARYLAND STATE NORMAL SCHOOL, established by the School Law of 1865, and reorganized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 12; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline County, 6; Carroll County, 10; Cecil County, 8; Charles County, 6; Dorchester County, 8; Frederick County, 12; Garrett County, 6; Harford County, 10; Howard County, 6; Kent County, 6; Montgomery County, 8; Prince George's County, 8; Queen Anne's County, 8; St. Mary's County, 6; Somerset County, 8; Talbot County, 8; Washington County, 10; Wicomico County, 8; Worcester County, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respective counties, or to the Board of Commissioners of Public Schools of the city of Baltimore. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the City of Baltimore, from

among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the profession of teaching within the State."

When the legal quota from any county, or from the city of Baltimore, is filled, applicants from that county or from Baltimore City should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner, or from the City Superintendent.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Sessions. The Fall Session, of 1898–1899 commences on Tuesday, September 13th. The Winter Session commences on the first Wednesday in January and closes on the last Thursday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Sessions, *and not at any other time*, unless previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday, September 13th, and former Students, desiring a re-examination in Physics, Mineralogy and Geology for promotion must also be present on Tuesday, September 13th.

EXPENSES.

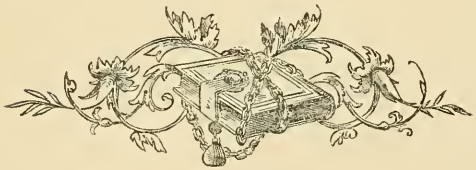

Students appointed by the County School Boards, or by the Baltimore City Board, are under no expense for tuition, English text-books, and School stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from $3.50 to $4.00 a week and within half an hour's walk, at $3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

Course of Instruction.

The course of instruction extends through three years. Candidates for admission may enter the second year's (middle) class, on passing an examination, on the studies of the first (Junior) year, and the third year's (Senior) class on passing an examination on the studies of the second (middle) year.

Observation of actual teaching, in both Normal and Model Schools, with notes thereon is required of every class.

Singing and Drawing are taught in every Term except the last, also sewing (to women,) and Military tactics and the use of Wood-working Tools (to men).

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and pass a satisfactory examination also in Arithmetic, Geography, History of Maryland and History of the United States, English Grammar and Physiology. Young persons who have not received a good *Primary* education, should not expect to obtain it at this school, under the claim that they are training for teachers; but all due allowance will

be made for earnest and diligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in two years, the majority require three years. Students differ very greatly, both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school which authorizes the holder to teach in any public school in the State is not given until after one year's successful experience as a teacher.

Maryland State Normal School,

BALTIMORE.

THE MARYLAND STATE NORMAL SCHOOL, established by the School Law of 1865, and reorganized under the Law of 1868, is intended for the "instruction and practice of Teachers in the science of education, the art of teaching, and the mode of governing schools."

ADMISSION.

Each county is entitled to send two students for each of its representatives in the General Assembly.

The apportionment is as follows:

Allegany County, 12; Anne Arundel County, 10; Baltimore County, 14; Baltimore City, 42; Calvert County, 6; Caroline County, 6; Carroll County, 10; Cecil County, 8; Charles County, 6; Dorchester County, 8; Frederick County, 12; Garrett County, 6; Harford County, 10; Howard County, 6; Kent County, 6; Montgomery County, 8; Prince George's County, 8; Queen Anne's County, 8; St. Mary's County, 6; Somerset County, 8; Talbot County, 8; Washington County, 10; Wicomico County, 8; Worcester County, 8.

Persons desiring to enter the School, should make application to the Board of School Commissioners of their respective counties, or to the Board of Commissioners of Public Schools of the city of Baltimore. The law requires the appointees to be selected "by the several Boards of County School Commissioners, and the Board of Commissioners of Public Schools of the City of Baltimore, from among persons having scholastic qualifications hereinbefore required for teachers," the evidence of which shall be the certificate of the County Examiner or City

Superintendent to that effect. They must be not less than sixteen years of age, if young women, and not less than seventeen, if young men, and must "file a written declaration that their object in obtaining admission is to qualify themselves as Public School Teachers, and that it is their intention to engage in the profession of teaching within the State."

When the legal quota from any county, or from the city of Baltimore, is filled, applicants from that county or from Baltimore City should address the Principal, enclosing a certificate of scholastic qualifications and a letter of recommendation from the County Examiner, or from the City Superintendent.

Students who are under age, or deficient in scholarship, can enter a Preparatory Class on paying the tuition fees.

SESSIONS.

The School year of nine months is divided into two Sessions. The Fall Session, of 1899-1900 commences on Tuesday, September 12th. The Winter Session commences on the first Wednesday in January and closes on the last Thursday in May.

Students will be admitted to entrance in the first week of the Fall and Winter Sessions, *and not at any other time*, unless previous arrangements have been made with the Principal to that effect.

New Students must be present on Tuesday, September 12th, and former Students, desiring a re-examination in Physics, Mineralogy and Geology for promotion must also be present on Tuesday, September 12th.

EXPENSES.

Students appointed by the County School Boards, or by the Baltimore City Board, are under no expense for tuition, English text books, and School stationery.

In addition to the regular appointees, there will be received, as required by law, a limited number of students of the proper age and scholastic acquirements, "who shall pay twenty-five dollars per session for tuition, and purchase their own text-books." Such students are not required to become teachers.

BOARDING.

Boarding can be obtained in the immediate neighborhood of the school at prices varying from $3.50 to $4.00 a week and within half an hour's walk, at $3.00 a week. The boarding houses selected by students must be approved by the Principal before the students are admitted.

Students who have no acquaintances in the city should make early application to the Principal, who will see that they obtain suitable accommodations.

Course of Instruction.

The course of instruction extends through three years. Candidates for admission may enter the second year's (middle) class, on passing an examination, on the studies of the first (Junior) year, and the third year's (Senior) class on passing an examination on the studies of the second (middle) year.

Observation of actual teaching, in both Normal and Model Schools, with notes thereon is required of every class.

SINGING AND DRAWING are taught in every Term except the last, also sewing (to women,) and Military tactics and the use of Wood-working Tools (to men).

Students will be examined on entrance in order to ascertain the proper class to which they should be assigned. Admission to the lowest class will require that the candidate should be able to read fluently, spell correctly, write legibly and rapidly, and pass a satisfactory examination also in Arithmetic, Geography, History of Maryland and History of the United States, English Grammar and Physiology. Young persons who have not received a good *Primary* education, should not expect to obtain it at this school, under the claim that they are training for teachers; but all due allowance will be made for earnest and dilligent students who will exert themselves to obtain a good standing during the first term of probation. No student will be allowed to enter an advanced class until all the work required in the lower classes has been performed satisfactorily.

Inquiries are often made regarding the length of time required to complete the course. It is impossible to give a definite answer to this question. The examination for diplomas is open to all students in good standing who have been at the school for one year. Experience shows that while some students have graduated in two years, the majority require three years. Stu-

dents differ very greatly, both in natural ability and acquired preparation. It is not expected that all shall make equal advancement in equal times. To fail to pass an examination is of itself no disgrace. The disgrace lies in the want of due diligence; or, still more, in the desire to seem to be that which one is not.

The main object of the school is to give professional training to those who intend to become teachers, and all the departments of study are considered as means to this end. But the general course is well adapted to those who have no professional object in view, and wish merely to obtain a thorough and liberal education. Temporary certificates will be given to students who complete satisfactorily the studies required by law; but the permanent diploma of the school which authorizes the holder to teach in any public school in the State is not given until after one year's successful experience as a teacher.
